2. Simply follow the instructions included in the invoice. You will be given secure options for full payment and also for payments broken down into smaller chunks thru PayPal (to make it easier on monthly budgeting plans).
3. For the one time full payment you can use a credit card over the phone, you can pay securely thru PayPal with its multiple payment options, or you can utilize a Venmo payment thru our @MESHnetwork account.
4. You have several options when you pay through PayPal - full payment, monthly payments, Pay In 4 (only for amounts up to \$1,500), and PayPal credit are all options taking this route - **terms are per PayPal, not MESH.**

**\*\* PayPal utilizes SOFT PULLS when checking your credit that DOES NOT affect your credit score \*\***

**HSA** and **FSA** cards are always capable of being utilized for your medical expenses. We are happy to take these as well.

There are also convenient online funds providers you can obtain money from to pay MESH if they make sense for you. You can make reasonable monthly payments to them. **Affirm.com** allows you to determine what amount they will finance and what your payments would be. They then provide their virtual Affirm card to purchase things with. **Quick2lend.com** is another example. There are multiple others as well. Optimizing your health should be readily available for anyone.

All paperwork, the physician video visit, and any questions you might have should be completed **before** you pay. You should know exactly what you are paying for. Special arrangements can occasionally be made in special circumstances.

MESH will be notified when you have paid, and then we will ship medications and all necessary supplies to you. We will inform you of shipments and provide tracking numbers to you.
